

SUMMARY

With a strong background in building and maintaining Web & OpenAI applications, I possess a solid expertise in modern web frameworks and AI, particularly React JS and chatgpt-4o. I am well-versed in software development methodologies, including Agile, and have a solid understanding of object-oriented programming concepts, MVC architecture, and Node.js APIs. Additionally, I have experience with user experience design principles and software versioning. Holding a Bachelor's degree in Computer System Engineering from the University of Engineering and Technology (UET) Peshawar, I am a seasoned engineering professional with a strong foundation in computer science.

PROFESSIONAL EXPERIENCE

Targa Telematics	Italy
# Core Developer	<i>February, 2023 — Present</i>
• Developing and maintaining web applications using JavaScript, React.js, TailwindCSS, Ant Design, Sass. • Worked on all type of requests using Rest APIs. (CRUD) • Used SwaggerApi & Postman for APIs testing. • Team collaboration in project development and proposed best possible solutions. • Participating in code reviews, testing, and QA to ensure the deliverables are of high quality. • Complete and understanding of Localization. • Any type of third party integration (Google map, payment gateways, websockets etc)	
Numero Uno Infomatica	Italy
# ChatGPT & OpenAI Engineer	<i>June 2022 — February 2023</i>
• Developing and maintaining web applications using JavaScript, React.js, TailwindCSS, Ant Design, Sass. • Worked on all type of requests using Rest APIs. (CRUD) • Used SwaggerApi & Postman for APIs testing. • Team collaboration in project development and proposed best possible solutions. • Participating in code reviews, testing, and QA to ensure the deliverables are of high quality. • Complete and understanding of Localization. • Any type of third party integration (Google map, payment gateways, websockets etc)	
Deltasoft Srl	Italy
# <i>Web</i> Developer	<i>August 2021 — April 2022</i>
• Worked with OpenAI technologies, including ChatGPT, DeepAI, Prompt Design, Llama, and LangChain. • Enhanced conversation experiences and automated tasks using advanced AI tools. • Developed customized solutions to meet customer needs. • Helped companies stay ahead in the evolving OpenAI landscape by delivering innovative and effective results.	

RELEVANT SKILLS

Languages

JavaScript, TypeScript, ES5/ES6+, Python, chatgpt, LangChain, LLM

Frameworks

Adaptable to any front—end framework; experienced with React.js, Nextjs, Llama, Rug.

ADDITIONAL SKILLS

Framework/Libraries:

Node JS, Express. MongoDB, Nextjs, Ant Design, Material UI, Bootstrap, Tailwind, REST Api. GraphQL, React Query, Recharts, Apex charts, Redux Toolkit, Zustand, Formik, Yup, Remix,

Tools

VSCode, Postman, SwaggerAPI, Git, Github, Bitbucket, Jira, Adobe XD, Firebase.

Familiarity

Agile (Scrum) methodology, UI design and tools e.g Adobe XD/Figma, MVC Architecture, API Development in Express

RECENT PRO3ECTS

Tourist Web App

(Larave, MySQL, Alpine JS, Tailwind CSS, JavaScript, Git)

- Developed a Tourism Reservation System for Dasol Municipality to enhance tourism management.

Infirmary System

(Larave, MySQL, Alpine JS, Tailwind CSS, JavaScript, Git)

- A web-based system for efficiently handling patient records, treatments, medications, and examinations at Pangasinan State University Infirmmary.

Scholarship System

(Laravel · MySQL · VueJS · Tailwind CSS · Machine Learning · Git)

- Developed a system allows you to manage scholarships and provides students with personalized scholarship suggestions.

CHAT AI

(React · MySQL · Java · · Websocket · ChatGPT-4o · LLM · Git)

- AI chat apps are using for numerous users. It was developed for bringing an innovation in chat app.

Check out my portfolio to see the projects I've worked on and learn more about me.

EDUCATION

Sapienza - Università di Roma
(Bachelor of Computer Science)

Italy(2018 ~ 2021)
